PROFESSIONAL PROFILE

Experienced and dedicated full stack mobile app developer with over 4.5+ years of IT industry experience. Specializing in cross-platform mobile development using React Native, as well as web development using reactjs and nextjs. Proficient in JavaScript, React.js, iOS development with Swift, Node.js, MongoDB, Firebase, SQL, and SQLite. Strong focus on the application lifecycle with a dynamic and personable approach. Excellent communication skills in English, always eager to learn new technologies.

PROFESSIONAL EXPERIENCE

Head of Mobile App Development

Panelist (Sit-Down) || Remote || 2023(July) – Present

- Led front-end mobile team, collaborating with CEO, CTO, and backend team to deliver a market-leading Australian product
- Enhanced user experience, increasing engagement and usability through design principles and rigorous testing
- Drove substantial performance improvements, optimizing load times, response times, and app responsiveness
- Seamless integration of new features, maintaining a competitive edge in the market.
- Add offline support to the app, and a robust chat messenger.
- Worked on agile methodology & Sprint releases to delivered each release on time.

Senior Mobile App Engineer

ScalaMed (Cardinal Health) || Remote || 2022(March) – 2023(July)

I have been working here for over 1 & half year and during this period of time I have been involved in the following roles and technologies.

- Led the transformation of an expo-based app to bare React Native within 3 months, enhancing app responsiveness and reducing launch time by up to 5 seconds.
- Collaborated with cross-functional teams, ensuring on-time project delivery and seamless communication.
- Implemented code push for over-the-air (OTA) updates and deployed apps to Google Play Console and Apple App Store.
- Received multiple recognitions, including "Employee of the Month" and "Best Performance of the Year."
- Worked on agile methodology & Sprint releases to delivered each release on time.

Full Stack Mobile & Web Developer | Team Leader

NESL-IT || Meridian Software Technology, RWP || 2020(October) – 2022(March)

I have been working for over 1 & half year at my current organization and during this period of time I have been involved in the following roles and technologies.

- Developed pixel-perfect UIs in React Native and managed time-sensitive updates for web and mobile applications, ensured bug-free products, and maintained client satisfaction.
- Led a team of developers, providing training on web and mobile technologies.
- Developed native modules from scratch (Objective-C, Swift, Java, Kotlin) to address limitations in React Native, enabling seamless communication with the JS engine

Freelance Developer | Web and Mobile Applications

2019(May) – 2020(October)

During my time as a freelance developer, I had the opportunity to work on a diverse range of projects encompassing web and mobile applications, as well as backend development using Node.js and .NET technologies. Some highlights of my freelance experience include:

- Successfully completing multiple web and mobile application projects for clients within specified timelines and budget constraints.
- Collaborating closely with clients to understand their needs and provide customized solutions tailored to their specific business objectives.
- Working independently as well as part of a team, adapting to different project dynamics and effectively managing multiple tasks simultaneously.
- Continuously learning and staying updated with the latest technologies and industry trends to deliver cutting-edge solutions to clients.

MAJOR PROJECTS

Panelist (Mobile APP)

Panelist is a social media platform for Run webinars & Virtual events, Host an in-person and Hybrid Events, Prospecting and matchmaking

Appstore=><https://apps.apple.com/gb/app/panelist/id618656782>

Playstore=><https://play.google.com/store/apps/details?id=com.panelist>

ScalaMed (Mobile APP)

Salamed is a secure online app to handle user medication & prescriptions in USA

Appstore=><https://apps.apple.com/us/app/scalamed/id1449533241>

Playstore=><https://play.google.com/store/apps/details?id=com.scalamed.patientmobileapp&hl=en&gl=US>

Trally (Mobile APP + Web + Backend)

I was responsible for doing all of the backend, front-end, DB architectures and servers. Responsible to make the live streaming core feature of application robust and up. Developed a lot of cool features in the application
