PROFESSIONAL PROFILE

Experienced and dedicated full stack mobile app developer offering over 3 years of experience to the IT industry. Dynamic and personable with strong focus on application lifecycle. Strengths in cross-platform mobile development in react native and native android development in kotlin and java. I also have good knowledge of server side, front end and database languages such as JavaScript, React.js, iOS development with swift, NodeJS, Mongo DB, firebase, SQL & SQLite. I have excellent communication skills in English and I am always keen to learn new technologies.

OBJECTIVE

To be a part of an organization where I can fully utilize my knowledge and skills to make a significant contribution to the success of the employer and, at the same time, my individual growth.

PROFESSIONAL EXPERIENCE

Senior Mobile App Engineer | Team Lead
ScalaMed (Cardinal Health) || Westridge 1, RWP || 2022(March) – Present

ScalaMed is a US based product recently acquired by Cardinal Health. I have been working here for over 1 year and during this period of time I have been involved in the following roles and technologies.

- Participated in design discussions regarding application architecture, feature implementations or any other relevant topic as required.
- Transformed expo-based app to bare react native by re-writing the entire app in bare React native framework with new state library called MST (Mobx State Tree) within 3 months of time & introduce jest for Test Driven Development for bug free app.
- Improve app performance by up to 500X and app load time by up to 5 seconds.
- Integrated & utilize react native debugging tools such as Flipper, Reactotron, React native developer and native iOS & android debuggers.
- Added support for multiple languages to expand business and target more users
- Developed pixel perfect UI and improve general responsiveness in app.
- Worked on agile methodology & Sprint releases to delivered each release on time.
- Oversaw full lifecycle of software development for all of the projects with 100% on time delivery.
- Collaborated with product owner, quality assurance testers, UI/UX team and CTO as needed.
- Planned, wrote, and debugged product with complete accuracy and bug free.
- Followed HIPPA compliance for security.
- Implemented code push for over the air (OTA) updates.
- Deploy to Google play console and Apple App Store for tests and prod releases.
- Nominated 3 time as employee of the month and got Best Performance of the Year.

Full Stack Mobile & Web Developer | Team Leader
NESL-IT || Meridian Software Technology, RWP|| 2020(October) – 2022(March)

I have been working for over 1 & half year at my current organization and during this period of time I have been involved in the following roles and technologies.

- Designed, developed, and modified 15+ software systems.
- Developed pixel perfect User interfaces in react native.
- Collaborated with project manager, quality assurance testers, and CTO as needed.
- Trained over 9+ staff members in internal web and mobile technologies, including steps on how to independently make minor updates or changes.
- Managed time-sensitive updates, including content changes and database upgrades along with changes on the live production sites & apps.
- Planned, wrote, and debugged web applications and software with complete accuracy and bug free.
- Due to some limitations in react native, developed native modules from scratch Native IOS (Objective-C and Swift) + Native Android (JAVA and Kotlin). Those modules communicate back and forth with JS engine.
- Revamped web application security applications, minimizing hacker attacks.
- Fixed bugs from existing websites and implemented enhancements that significantly improved web functionality and speed.
- Oversaw full lifecycle of software development for all of the projects with 100% on time delivery.
- Dealing the clients with 100% satisfaction.
- Implemented code push on all of the mobile applications and use GitHub actions for continues deployment on all of the sites.

MAJOR PROJECTS

FeedU
Available on (Web, IOS App Store, Google Play Store)
I am responsible basically for all the aspects of the development, from design to server configuration and deployment

Tethr
Available on (Google Play Store, IOS App Store)
